DRAWINGS

1. The drawings filed on 22 December 2000 are acceptable subject to correction of the informalities indicated: The drawings are informal and contain hand written drawings as well as hand written references on printed drawings.

2. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: The independent claims now state, taking claim 1 as exemplary, "a first multiplexer circuit configured to multiplex data received from (i) said memory interface circuit, (ii) said extension stack and (iii) said translator circuit for presentation to said processor interface circuit; and a second multiplexer circuit configured to (i) multiplex data received from said processor interface circuit and data received from said extension stack for presentation to a first input of said memory interface circuit and (ii) multiplex address information received from said processor interface circuit and address information received from said translator circuit for presentation to a second input of said memory interface circuit" or similar limitation. As stated in the previous Office Action, these limitations contain the specific interconnections/inputs of the multiplexers within the device. The prior art searched may contain multiplexers, but none teach and/or show the inputs to the multiplexers as claimed.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
